FOLLOW UP DRILLING TO COMMENCE AT KEMPFIELD

Argent Minerals today announced that it will be commencing follow up drilling to the recent drilling program completed at Kempfield, which consisted of 26 short RC holes that successfully found extensions to existing resources in the three silver rich zones of BJ, McCarron, and Quarries.

A program of 21 short RC holes is planned in an attempt to further expand the resources in these zones at Kempfield.

The program should be completed by early December and the results available by late 2009 or early 2010.
